3.2.3 Destinations of Year 11 Leavers in Lewes & Wealden 2007	13

1. Introduction to Destination Statistics

What is in these statistics?

This booklet contains details of the destinations of Year 13 full-time students from all maintained mainstream schools in Brighton & Hove and East Sussex. It does not include students from independent schools.

The destinations are those known at 1st November 2007 and not necessarily the first destination of students leaving school.

How are these statistics collected?

Sussex Careers starts collecting data from 1st October 2007 onwards as part of its regular follow up of school leavers. In October a concentrated effort is made to check the destinations of each individual young person. This is done as far as possible by telephone and letter to the young person.

2. Explanation of Terms Used

Continuation 2 yr course – includes those who have missed a year and are completing a two year GCSE course.

Full-time education – those leaving Year 13 to begin a full-time further education course.

Non-employed status training – those entering a training course without entering full-time employment. Includes E2E programme.

Employment with training – those finding employment, starting employed-status Modern Apprenticeships, employment with training to NVQ level 2, or locally recognised training.

Employment no training – those finding full-time work without entering a training scheme or taking vocational qualifications.

Part-time learning – young people who are not in full-time work, education or training but have indicated that they are taking a part-time course.

Part-time employment – young people who are not in full-time work, education or training but have indicated that they are working part-time.

Voluntary work – those who take up work experience on a full- or part-time basis. This may help participants to gain employment in the same or allied employment fields.

Unemployed – those who are registered unemployed and claiming benefit.

Not active – those who are caring for family, are long-term ill or pregnant.

Moved/out of contact – those who have moved out of the area or left the country.

No response – those who have not replied to letters and phone calls and on whom no data can be obtained.
